Construction Equipment Causes Power Outage

Approximately 1400 MPU customers were without power this morning after construction equipment made contact with a high voltage line in the 1800 Block of S. Rapids Road.

The outage began at 11:15 AM affecting businesses and residences from the Calumet Avenue South Frontage Road north to Custer Street, east of Rapids Road. The outage area included portions of Harbor Town and the Expo Drive Industrial Park.

MPU crews were able to isolate the damaged section of line and re-energize most customers by 12:00 noon. Remaining customers were without power until 1:00 PM.
