**PERSONNEL COMMITTEE REPORT AND RECOMMENDATIONS:** T. Adams provided an update of the June 22, 2022 meeting. The Employee Policy Manual updates included: addition of grandchildren and niece/nephew to the funeral leave; standby wages added for the Water System Operator; two positions added to Appendix E which were recently filled; language added back into the training policy addressing employees' use of personal vehicles and traveling at their convenience for training; removal of Rental Cars section; clean-up of language that was remnant of ACT 10 regarding overtime; and minor revisions for consistency and clarity. The Personnel Committee Charter revision was presented to authorize the Personnel Committee to approve annual wage adjustments and report to Commission through the annual budgetary recommendations. T. Adams also provided a status update on his 2022 goals which are on track.

**MOTION:** A Motion was made by Commissioner Diedrich and seconded by Commissioner Seidl to approve the recommendations of the Personnel Committee which included the revisions to the

Employee Policy Manual and the revised Personnel Committee Charter. Motion carried unanimously.

**BANK FIRST MONEY MARKET INTEREST EARNED UPDATE:** Bank First has updated MPU's money market interest earned rate as of June 1st, 2022. The interest earned rate was previously the Wisconsin Local Government Investment Pool annualized earnings rate plus 10 basis points (0.1%) but was changed to the Wisconsin Local Government Investment Pool annualized earnings rate plus 30 basis points (0.3%). Bank First is ensuring this rate for 12 months and will review again at the end of this term.

**TURBINE 6 RETIREMENT:** On January 15, 2019, MPU submitted a completed Attachment Y Notice to MISO for the suspension of Lake Front T6 Unit effective August 1, 2019. Pursuant to Section 38.2.7 of the MISO Tariff, MISO conducted an Attachment Y Reliability Study to determine whether this unit was necessary for the reliability of the MISO Transmission System. MISO notified MPU of its limited right to rescind the Attachment Y Notice within fifteen (15) Business Days of receipt of letter – i.e., February 26, 2019. MPU did not rescind the Attachment Y Notice and MISO determined the unit was not required for system reliability and the unit went into economic suspension as of August 1, 2019. The economic suspension period is for 3 years with the end of the suspension period being July 31, 2022. Due to operational issues, Turbine 6 is currently not operable. In order to return Turbine 6 to operations, the unit would need an evaluation done to determine the extent of damage to the unit and the costs to repair. Turbine 6 is connected in parallel with Turbine 5 to the steam output from Boiler 8 and is therefore a redundant unit at this time.

**MOTION:** A Motion was made by Commissioner Seidl and seconded by Commissioner Hornung to retire Turbine 6 in place and to remove the unit from MISO's Commercial Model as recommended. Motion carried unanimously.
