CONTACT: Jennie Nelson – Communications Manager

### Lead Service Line Replacement Funding

Manitowoc Public Utilities (MPU) received funding from the Wisconsin Department of Natural Resources (WDNR) to assist homeowners in replacing their lead service lines (LSLs) through the WDNR's Principal Forgiveness program. MPU still has funds available for 2022 and is strongly urging LSL homeowners to consider applying for these funds. The WDNR is discontinuing the Principal Forgiveness program for LSLs in 2023 and it is unclear if any funds will be available to MPU customers in the future. MPU's current funds can be utilized through April of 2023. This is a first come, first serve program so timeliness is important.

If you know you have a LSL and are interested in applying, please call our office at 920-683-4600. If you're unsure if you have a LSL or not, you are welcome to call our office to discuss or review the resources on our website at [www.mpu.org/lead](http://www.mpu.org/lead).
