

# COMMUNITY SOLAR UPDATE

**December 28, 2023**

The Community Solar Garden construction is well on its way! Electric infrastructure has been delivered and stakes have been strategically placed to indicate future pole placement. Pole placement will begin soon.

While there has been some delay in construction, we are still anticipating the program to launch in Spring of 2024. We will continue providing updates as the project progresses.

If you are on the waiting list, you'll be hearing from us soon! You will be receiving a letter within the next couple of weeks requesting your subscription level commitment. This is a first-come, first-serve program so we are working through the list in that manner.

If you have any questions, or are interested in joining the waiting list, please reach out to us at 920-683-4600.
